

Auspicious 2021 conception dates to conceive

Below are the Shukla Paksha (bright/waxing phase of the moon) Vedic days to conceive in 2021. As far as possible try not to conceive during the Dark phase of the moon which are the dates not given below... But of course if this is not possible then scriptures state doing things according to deshaa-kaala-artha-tattva-jnah “according to time, place and circumstances” {Srimad Bhagavatam 10.11.22} and this is what I'm trying to relay in this article. Conceiving a child in the appropriate time can attract a very evolved soul into your womb and thus a Raam-like or Sita-like child can be born in your lineage. Hence our scriptures detail the importance of conception prayers. Do note before conception there is a prayer called the Garbhadhana Samskara which means the impregnation purificatory rite.
